CAREER OBJECTIVE

As a detail-oriented and innovative IT graduate with a First-Class Honors degree, I am passionate about leveraging my web development, database management, and analytical skills to deliver impactful digital solutions. With experience in dynamic environments and a proven track record of problem-solving, I seek a challenging role where I can contribute to meaningful projects and grow professionally.

EDUCATION

Bachelor of Science in Information Technology

Kirinyaga University | 2019 - 2023

- Graduated with First-Class Honors.
- Relevant coursework: Programming Fundamentals, Web Development, Object-Oriented Programming, Database Management Systems, and Network Administration.

Kenya Certificate of Secondary Education (KCSE)

Manooni High School | 2015 - 2018

- Achieved a Mean Grade: B+ (67 points).

KEY SKILLS

- Programming & Development: Proficient in PHP, HTML, CSS, JavaScript, ReactJS, and Bootstrap.
- Database Management: Expertise in MySQL and database optimization.
- Version Control: Knowledge of Git and GitHub for code collaboration and management.
- Tools & Software: Experienced with VS Code, XAMPP, and debugging tools.
- Problem-Solving: Adept at identifying and addressing technical challenges effectively.
- Communication: Excellent verbal and written communication for team collaboration and client engagement.

TECHNICAL PROJECTS

1. Web-Based Inventory Management System

- Designed and developed an inventory tracking system for local businesses, enabling real-time updates on stock availability.

Tech Stack: PHP, MySQL, Bootstrap, and JavaScript.
